its a real fun game to play with friends considering the price . only bad thing i saw was some freezes in game when you are turning and but out of all i recommend this game.

9/10. I love this game I bought 10 Copies for friends already but Steam blocked me buying more send HELP. We had a blast for 2 hours in coop. Bought for 0,39€ each during sale, best 0,39€ spend so far.. Great Price + Great Game. You'd never guess by looking at the screenshots, but this game is not half bad. Definitely worth its price.. si it's fun just to mess around with. One of the greatest life experiences of all time. Such a low price seems like a scam to me.
